REPORTS OF COMMITTEES.

His Excellency, Cary A. Hardee, Governor, as chairman, submitted the following report:

To the Legislature of the State of Florida:

At the regular session of the Legislature, 1919, House Concurrent Resolution No. 25 was passed, which said resolution reads as follows:

"That the Governor, Commissioner of Agriculture and Comptroller be and they are constituted to investigate the advisability of establishing a Hog Cholera Serum Manufacturing and Distributing Plant at some centrally located point in this State, and that they be requested to make a full report of their findings, including cost, maintenance, distribution, etc., at the regular session of the Legislature in 1921."—Approved June 7, 1919.

In harmony with the wishes of the Legislature, as expressed in the above resolution, we your committee beg leave to submit the following report:

We have gone carefully into the equipment necessary to provide a sanitary plant for producing anti-hog cholera serum and virus, the cost of operating such a plant, and the number of swine necessary to produce a sufficient amount of serum and virus for the use of swine growers of the State of Florida, and we are of the opinion that it would not be good business policy for the State of Florida to go into the business of producing anti-hog cholera serum and virus.

The first item of cost would be the buildings with all of their necessary equipment. The buildings should not only be well constructed, but most sanitary. The second item is the swine from which to get the blood. The State farm could furnish some swine, but it could not furnish anything like the number required for such a plant. The third item is that of skilled and technical help, which is both difficult to find and expensive as well.

To further back up your committee in arriving at its conclusions, we beg to say that in the past ten years a number of States, North and South, have built and operated anti-hog cholera serum plants, and some of them at large costs, and nearly or quite all of these plants have been abandoned.

We believe that the State of Florida should purchase for the farmers and swine growers the anti-hog cholera serum at the lowest possible price and let the farmers and swine growers have same at cost plus the cost of distribution.

Respectfully submitted,

CARY A. HARDEE, Governor.

ERNEST AMOS, Comptroller.
